REMARKS

The figures of births and deaths of India shown in this statement for week ending the 30th March, 1957 relate to 163 towns with an estimated population of 23,892 thousands. Information about Andhra Pradesh, Assam, Bihar, Madhya Pradesh, Rajasthan, and West Bengal could not be included. The total number of towns is 318 and their population is 41,584 thousands. Thus 51% of the total number of towns representing 57% of the total population is

covered in this statement. The number of births and deaths recorded in these towns were 14,804 and 6,294 representing birth and death rates of 32.2 and 13.7 per thousand of population respectively

No town recorded a high death rate of 50 or above per thousand of population. The following table gives the position by States:—

States	Current		Corresponding w/c last year
